

Friends of the Cancer Resource Centre New Members Welcome

The Friends of the Cancer Resource Centre is a volunteer auxiliary of the Cancer Resource Centre designed to enhance and promote the good works of the Centre.

Since it opened in June, 2003, the Cancer Resource Centre has helped thousands of people who have been affected by cancer. Patients and loved ones have utilized the Centre – free of charge – in its mission to “promote the well being of all people whose lives have been touched by cancer, by offering support, education and encouragement.”

Support and networking groups ... sessions for the mind, body and spirit ... workshops ... seminars and special events ... all continue to assist people throughout Northwest Indiana and the south Chicago suburbs who come to celebrate life, cope with adversity and receive answers to their questions.

The Cancer Resource Centre is a support program of the Community Cancer Research Foundation, a not-for-profit organization dedicated to improving the quality of cancer care available to others. Individuals do not need to be patients of Community Hospital or the Community Healthcare System.
